

Subject:

Reflexology Helps Multiple Health Conditions, Circulatory Diseases, 15 Kinds

Study Conducted: Country: Institution:

Paraguay

Not Indicated.

Citation:

Shuwen, C., "Auricle-Back Plaster Therapy." 2004 China Symposium Reflexology Report, pages 8-16.

Synopsis:

Eleven examples of 175 cases of patients suffering from cardiac-cerebral vascular diseases of 15 kinds in circulatory system received persistent treatment of auricle-back plaster therapy.

Conclusion:

Treatment was remarkably effective for 48% and effective for 50%. For diseases of complicated etiological factors, the effect of this therapy was not so remarkable or came slowly; Thus, further studies are needed.
